

# Welcome to #FarmingFortnight

**Farmers passionately work hard to produce the food alongside taking action to enrich our natural environment. They strive to feed an ever-growing population, finding solutions to many challenges which impact how and what they farm.**

During Farming Fortnight, you have the opportunity to positively engage your pupils in discussions and activities that focus on British farming and food production.

Download a range of engaging resources and materials to explore different farming sectors and deliver inspiring lessons around food and farming. Each day has a farming theme with an accompanying social media hashtag giving you the option to share your pupils' learning experiences with others and to see what else is happening in schools and on-farm across the UK.

## Resources required

All you need is  
10-30 minutes  
per day and  
some easy to  
access resources

## What's in store?

### Week 1

WC: 5<sup>th</sup> June 2023

#MarketMonday  
#TechyTuesday  
#WormyWednesday  
#ThankfulThursday  
#FutureFarmingFriday

### Weekend

10<sup>th</sup> & 11<sup>th</sup> June 2023

#SustainableSaturday  
#LEAFOpenFarmSunday

### Week 2

WC: 12<sup>th</sup> June 2023

#MuddyMonday  
#TractorTuesday  
#WarmingWednesday  
#TastyThursday  
#ForestryFriday

### Engaging with the activities:

**Key questions:** promote creative thinking and thought-provoking discussions encouraging pupils to explore wider themes.

**Instructions:** a main activity to engage and explore key questions this can be adapted for your pupils using the alternative activities suggested.

**You could also:** an extension from the instruction activity encouraging pupils to delve deeper into the subject (it could also be used as an alternative main activity).

**Make it simpler or harder:** allows you to pitch the activities to the needs of your pupils.

**What do you think?** An opportunity to develop independent critical thinking and reasoning skills as well as effective listening and communication skills during a class discussion.

Remember  
to share your  
learning...
